

# Cool Down The Pace

Gregory Isaacs

Went to a dance last Saturday night  
I was feeling tipsy and the mood was right  
Sight a little daughter and I step inna the corner  
'Cause I feel like dancing all night But I said  
Cool down the pace for me little woman  
You're dubbing it too fast for me  
Cool down the pace for me little woman  
That's not how it should be I told her to try  
I dunno why  
No use trying 'cause she can't  
And so she do it how she want  
So I said  
Cool down the pace for me little woman  
You're rocking it too fast for me  
Cool down the pace for me little woman  
That's not how it should be You're rocking too fast, for me  
Said she would try But she just don't know why  
She keep on trying but she can't  
And so she do it how she want  
But I beg you Cool down the pace for me little woman  
You're dubbing it too fast for me  
I said to cool down the pace for me little woman  
That's not how it should be  
Please sister try  
I don't know why  
No use trying 'cause you can't  
And so she do it how she want  
But I said cool down the pace Please cool down the pace  
You're rocking it too fast  
This dance is gonna last  
Move a little slower  
Move a little slower, not so fast  
All night this dance is gonna last  
Cool down, cool down, cool down, cool down, cool down, not so fast  
All night, this dance will last  
Don't be in a haste  
Please cool down the pace  
Cool down  
Sister please cool down
