

Still In Love

Brooke Fraser

I'm not hangin' on your every word
I'm thrivin' on my self-sufficiency
I'm not listenin' to the things I've heard
About me and you People think there must be somethin' to the way
I talk about you every chance I get
But if I think about you night and day
Doesn't mean I'm ready yet Maybe I am knee deep in denial
Or maybe I'm just tryin' to move on-on
Maybe I should keep away awhile
But if distance is right, I'd rather be wrong
(Chorus)
'Cause I love the way you're smiling at me
When you know it's true
I'm still in love with you
And I love the way you're really tryin'
Not to let me see
You're still in love with me too I am way too proud to verbalise my feelings
And you are way too mean if you just let this brew
It's a complicated hand that you've been dealing
Time to win me over, fold and make your move Smooth some calm over this situation
I can't get past the way I feel for you
It's the little things that make this worth the effort
It's the small little insignificant things you do
That make me love the way you're glancin' hopin'
When you know it's true
I'm still in love with you
And I love that I am barely coping
When you let me see
You're still in love with me too (Music) Ba ba ba ba ba ba
Ba ba ba ba ba ba
Uh, ugh, oh! In love, still in love with (ooh.)
In love, still in love with
In love, still in love with you (you you you) In love, still in love with (still in love, still in love)
In love, still in love with
In love, still in love with you (ooh.) In love, still in love with (still in love, still in love)
In love, still in love with
In love, still in love with (still in love) (I'm still in love with you) In love, still in love with (still
in love, still in love)
In love, still in love with
In love, still in love with (still in love, still in love) (Pause) (- People in background with
clapping-) In love, still in love with
In love, still in love with

In love, still in love withIn love, still in love with
In love, still in love with
In love, still in love with
