

# Salvation

## Chimaira

Endless nights filled with misery  
Sick of familiar patterns  
Bruise after cut  
Can't wash away my scars This is a night of... sal-vation, salvation...  
On the night of sal-vation, salvation... This life always painted me  
Tired of the same routine  
All the lies I've told  
Can't hide the little things  
This is a night of... sal-vation, salvation  
On the night of sal-vation, salvation Life has been left behind me  
I will not cower away  
Cower away Adrenaline stronger than ever  
Feel it all come together  
(x2)  
On the night of... sal-vation, salvation...  
On the night of sal-vation, salvation... Life has been left behind me  
I will not cower away Salvation(x4)
