## **Til It's Over**

## **Old Dominion**

Hey, you don't have to stay you don't have to say anything that you don't wanna say-ay hey, you don't have to go We can take it slow-oh Or we can move it alone, move it along We can keep it on the couch and keep the lights on Naked makin' out, or keep our clothes on Don't worry 'bout where it's going if it dead ends, or if it's headed... Up the stairs or down the block If it last forever until 1 o'clock It is what it is 'til it was what it was let it do what it does 'til it's over If it's right then it's right if it's only the drinks and it just hangs around 'til we're sober

It is what it is 'til it was what it was let it do what it does 'til it's over Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
