

# Don't Run

## Bad Veins

I've known you for a long time  
But, I can't go taking your side  
You can try and play my heart strings  
You can try just about anything  
You might not want to see it  
But that wont stop you from being itIs this going to a problem?  
Cause I'll make it my problemI know its harder to stay  
There's no easier way  
To face the mess we madeI know its harder to stay  
There's no easier way  
To face the mess we made  
You say you don't like living here  
But your reason is never really clear  
Maybe you don't know what to do  
I'd be bored as hell if I were you  
You might not want to see it  
But that wont stop you from being itIs this going to a problem?  
Cause I'll make it my problemI know its harder to stay  
There's no easier way  
To face the mess we've madeI know its harder to stay  
There's no easier way  
To face the mess we've madeI'm not so sure this city is too big to out grow  
So when you do, I'll let you know  
I know its harder to stay  
There's no easier way  
To face the mess we've madeI know its harder to stay  
There's no easier way  
To face the mess we've made
