

# Back When We Were Beautiful

Emmylou Harris & Rodney Crowell

I guess you have to be there  
She said you have to be  
She handed me a yeltful to cry  
And then said, see? This was my greatest love  
My one and only love  
And this is me  
Back when we were beautiful  
See I don't feel very different  
She said I know it's strange  
I guess I've gotten used to  
These little aches and pains  
But I still love to dance  
You know we used to dance  
But night away  
Back when we were beautiful  
Beautiful, yes I hated when they said  
I'm aging gracefully  
I fight it every day  
I guess they never see  
I don't like this at all  
What's happening to me? But I really love my grandkids  
She said they're sweet to hold  
They wouldn't love their grandpa  
Those awful jokes he told  
You know sometimes for a life  
The two of us would let  
Like we were on  
Back when we were beautiful Beautiful, beautiful, beautiful yes But I guess you had to be there
