

# Breathless

## Acceptance

watch her go watch her go watch her go  
she'll have to cut it away to save her life  
and she knows  
see she knows  
it's like fatal disease  
you'll hear her cry, ohtake this  
make it something beautiful again  
make this  
make this happen cause you're beautiful to them  
turn into themcaught you anyway  
i'm gonna say that i've been taken over  
come let's go again  
and tell me when  
and i'll be taken over  
you know that i'll never do it again, again  
and i tell you i love you  
say it again, again  
turn into themcaught you anyway  
i'm gonna say that i've been taken over  
come let's go again  
and tell me when and i'll be taken overand time stands still as i picture  
and time moves on to next one  
with every word you said  
with every word you saidcaught you anyway  
i'm gonna say that i've been taken over  
come let's go again  
and tell me when and i'll be taken over  
caught you anyway  
i'll be taken over  
come let's go again  
and i'll be taken over
