## Metal

## **Gary Numan**

We're in the building where they make us grow And I'm frightened by the liquid engineers Like youMy Mallory heart is sure to fail I could crawl around the floor just like I'm real Like youThe sound of metal I want to be you I should learn to be a man Like you Plug me in And turn me on Oh, everything is movingI need my treatment it's tomorrow they send me Singing I am an American Do you? Picture this, if I could make the change I'd love to pull the wires from the wall Did you? And who are you And how can I try Here inside I like metal Don't youAll I know

Is no one dies
I'm still confusing love with need
