

Sugar

Five Knives

Oh, my God.

I know what them boys want! I know what them boys want!
I know what them boys want! (They just wanna taste my sugar)
I know what them boys want! I know what them boys want!
I know what them boys want! (They just wanna taste my sugar)

Oh, my God! Oh, my God!
Who told you that you was hot?
They're coming after me,
They know I'm cherry sweet
But they just make me say
Oh, my God!

I know what them boys want! I know what them boys want!
I know what them boys want! (They just wanna taste my sugar)
I know what them boys want! I know what them boys want!
I know what them boys want! (They just wanna taste my sugar)

They don't know that I'm a pistol
Impossible to control
Get up, get off, get out, get back
Don't make my bad.
They're coming after me,
They know I'm cherry sweet
But they just make me say
Oh, my God!

I know what them boys want! I know what them boys want!
I know what them boys want! (They just wanna taste my sugar)
I know what them boys want! I know what them boys want!
I know what them boys want! (They just wanna taste my sugar)

Sugar, sugar, sugar, sugar, sugar
Oh, my God!

I know what them boys want! I know what them boys want!
I know what them boys want! (They just wanna taste my sugar)
I know what them boys want! I know what them boys want!
I know what them boys want! (They just wanna taste my sugar)
