

# Plane

## Omni

We're taking off  
It's like I told you  
There'll be more time for garments and sweets  
Gazing off, oh I can hold you  
And maybe have another drink for free  
Put me down for another while she's asleep  
Put me down for another while I read  
Put me down for another, you think I'm sweet  
Remind me your name  
Pretend I'm someone else  
Pretend you're not yourself  
Pretend I'm someone else  
Pretend you're not yourself  
Pretend I'm what you wanted  
And maybe have another drink for free  
Oh I'll scoot over, there's an extra seat  
Pretend I'm what you wanted  
We're taking off  
The pilot told you  
The sky's the lane for our fantasy  
Blow it off, you're dropping phone calls  
And stay a while to come and curl up with me  
Put me down for another while she's asleep  
Put me down for another, no disputing  
Put me down for another, quite something  
Remind me your name  
Pretend I'm someone else  
Pretend you're not yourself  
Pretend I'm someone else  
Pretend you're not yourself
