

# Know Normal (feat. Kembe X)

Alex Wiley

I just be peepin shit sometimes I think I should say something  
Shit's getting awkward, I pull out the aux cord and play something  
I gotta stay smooth I spin move out of fucked up situations  
Spend my day in front of screens like my whole generation  
I got that shit for the low, keeping shit equitable  
I hope that's understood  
Tripping like I licked her toes, your bitch say you be licking toes  
Bro that is not cool  
Finna meet up with the God, he know if I slide  
Then dollars I'm dropping a few  
And my main bitch along for the ride  
I'm in the office on business, she hopped in the pool  
Feel like I'm living a good life  
Couple weeks straight full of good nights  
I, made a decision to be kind  
Now I'm fucking your bitch from behind  
I'm, not really thirsty to be signed  
I'm with the Village, I'll be fine  
I, hit the peace sign then I recline  
I'm so fucking high nigga we glide, by  
Why, all this time  
I thought wrong?  
Fallin down made me strong Got jumped in the 8th grade and it just made me realer  
Don't get why old fuck niggas try to throw shade  
But it just made me realer  
I've spent weekends sleepless and it just made me realer  
Your bitch cheated, treated, bet the salt can't be realer\*crying\*  
I can't believe this bitch! We were supposed to get money and ride 'raris together! I bought  
meals for that bitch! I'd take a bullet for that bitch! I no know normal x8(\*tapping microphone\*)  
Yo, is this thing on?  
No I'm just kidding, I'm in the studio. I know it's on  
So one time for the fun time, waited way too long in the lunch line  
It's the Village Triple 7s for you dumb motherfuckers that can't sit down and shut the fuck up  
listen just one time please!)  
I woke up at the foot of the bed  
Texted my bitch and said, "It's ugly looking ahead"  
She want a love and I want some loves  
It's obvious we have no page in common baby  
Stoners maybe  
But I can't resist the waves they've come in lately  
I believe, I walk with a beast  
A shield of heaven protects me

Never-the-less, the devil attacks me  
I run where the flow and the track meet  
Basically, the race that we've creatively cremated  
Leads to hatred, 3rd degrees with salt on the wounds  
He's faceless!  
Contradictions stain my record and I admit it  
Consequences came, I stumbled but I can fix it  
I struggle with my addictions;  
Pussy and hoes' attention  
Quick witted bold decisions, Loosie done grown relentless  
I won't lie, no, I've been  
Feeling like God's gone hidin  
Winters froze my whole body dawg  
Center your mind, soul, vibe, broI no know normal x8
