

Safety (feat. DJ Snake)

GASHI & DJ Snake

Oh, oh no no, oh Sometimes don't wanna fall in love 'cause I'm sick of lies
When you not around
all I got is tears in my eyes
Mama praying, saying boy that you'll be fine
You're the first and the last thing that's always on my mind
I need you, come over and save me
now
Tell 'em all that you love me now
Please don't you ever put me down
Make me put this gun down now
I need you, come over and save me
I need to put this gun on safety
I hate that you just said you hate me
I need you, come over and save me right now
Broke my heart into pieces
Never thought you would leave me
Girl, your mind like the seasons
Switching up for no reason
Never thought you would leave me
It's so hard to redeem it
Girl, you got me spinning around and around
I need you, come over and save me now
Tell 'em all that you love me now
Please don't you ever put me down
Make me put this gun down now
I need you, come over and save me
I need to put this gun on safety
I hate that you just said you hate me
I need you, come over and save me right now
I need you, come over and save me
I need to put this gun on safety
I hate that you just said you hate me
I need you, come over and save me right now
Oh no no, oh
