

# Solar Power Girl (feat. Timbaland)

## Brad Paisley

[Verse 1]

She don't like the rain  
Always makes her sad  
The thunder and the lightning reminds her of her dad  
Today she makes a jailbreak  
Today she leaves her nest  
She's packing up for college  
And she picked one out west  
She's had enough rain  
The clouds need to part  
Her life's been that way  
She needs to recharge  
Her family's been broken  
Just like her heart  
She's always been scared of the dark

[Chorus]

She feels like a solar power girl  
She needs to live on the bright side of the world [Verse 2]  
Her mother worked two jobs  
Raised her all alone  
How come superheroes always come from broken homes  
Her daddy liked to drink  
Her daddy liked to swear  
Best thing he ever did vanish right into thin air  
That supergirl needs sunlight so she gets in her car  
She's going somewhere she can feel the earth close to stars  
She laid down on a blanket 'neath the Hollywood sign  
And walked all on the side of her mind [Chorus]

She feels like a solar power girl  
She needs to live on the bright side of the world

[Bridge]

Yes she's been through the storm  
Her new life's begun  
Like a rose 'bout to bloom in the sun [Chorus]  
She is a solar power girl [Instrumental] [Bridge]  
In the dark of the night  
She's realized

Tomorrow the sun's gonna rise [Outro]  
She feels like a solar power girl  
She needs to live on the bright side of the world  
Yes she is a solar power girl
