

My Heart (feat. Colbie Caillat)

Toni Braxton

I tell myself I love you, because I really care
I tell myself I need you, but is that really fair?
I really truly love you, and I'll always be there
Just don't know how to tell you, I don't wanna be here
I can be that friend that I was to you
Like we were right from the start
I can be right there when you want me to
If we're a million miles apart
I'd give you every part of me that I could
But the one thing I can't give you...is my heart
Is my heart
I wish that I could like, my feelings are sincere
But every time I try to, it kinda disappears
I know how much you love me, mmm, and want me to love you
But every time I try to, ooh, the feelings end there
I can be a friend like we used to be
Like we were right from the start
I can be right there when you call me up
Even a million miles apart
See, I gave you every part of me that I could
But the one thing I can't give you...is my heart
Is my heart
My heart, yeah
I gave you every part of me that I could
But the one thing I can't give you...is my heart
Is my heart
Is my heart
Is my heart
I can't do it...
I can't do it...
