

Dirty

Sevendust

I'm no stranger
To this thing of war
Just a person starving (Stranger, stranger)
What makes us human
Becomes a ghost
I can barely breathe in (All I see is war!) I never knew what you needed
I just know I'm wrong
I know its hard for you to believe
I'm gonna die whole
Watch the hate you feed
Hold your own
Watch the hate you feed
I'm just a passenger you've never seen before
Inside a shell that's dying (Stranger, stranger)
What makes us do this?
We can't ignore
I can almost taste it (All I see is war!) I never knew what you needed
I just know I'm wrong
I know its hard for you to believe
I'm gonna die whole (I'm gonna die!) Watch the hate you feed
Hold your own
Watch the hate you feed I never knew what you needed
I just know I'm wrong
I know its hard for you to believe
I'm gonna die whole
Watch the hate you feed
Hold your own
Watch the hate you feed
Hold
Watch the hate you feed
Hold your own
Watch the hate you feed
