

Misfits

Third Eye Blind

Hey bro props at the after show
Can you tell me where the greenbuds grow?
I'd like to say you turned my life around I lost myself outside again
With the sound running through my head
Drowned out way out in the crowd
and the crowd goes singing My people are the misfits
The ones that don't fit in
With the smile I know it comes within
I can feel you in the corners laughing when the lightings low They say
Tick tick. tell me where the time goes
Oh life, you know it moves much too slow
Tick tick tell me where the time goes
Those are the ones for me
Those are the ones for me
The misfits, the freaks, the enemy, you and me
Those are the ones for me
Those are the ones for me
The misfits, the freaks, the enemy, you and me My people are the misfits
I won't let you down
I'm dizzy from whatever we just passed around
I bleed for the moments when we're here
And we're all around They say
Tick tick. tell me where the time goes
Oh life, you know it moves much too slow
Tick tick tell me where the time goes
Those are the ones for me
Those are the ones for me
The misfits, the freaks, the enemy, you and me
Those are the ones for me
Those are the ones for me
The misfits, the freaks, the enemy, you and me Those are the ones for me
Those are the ones for me
The misfits, the freaks, the enemy, you and me
Those are the ones for me
Those are the ones for me
The misfits, the freaks, the enemy, you and me Bring it all down, they say
(Alright, alright)
Bring it all down, they say
(Alright, alright) Those are the ones for me
Those are the ones for me
The misfits, the freaks, the enemy, you and me
Those are the ones for me

Those are the ones for me
The misfits, the freaks, the enemy, you and meThe misfits, the freaks, the enemy, you and me
