

# Endless Forms Most Beautiful

## Nightwish

Come on, hope on, let's take a ride  
Come and meet the travelers who came to town  
They have a tale from the past to tell  
From the great dark between the stars We are a special speck of dust  
A fading moment on an ark  
A celebration, a rest haven of love Lay on the field of green with mother  
Leave with father by reaching high  
Look, put yourself in the eyes of all (In the eyes of all)  
Unfolding rendezvous Deep into the past  
The lonely eon path  
Greener blade of grass  
Every endless form most beautiful  
A life of wearing on  
Before the grandeur of it all  
A floating pale blue ark  
Of endless forms most beautiful Beyond eons we take a ride  
Welcoming the shrew that survived  
To see the Tiktaalik  
Take a first walk, witness the birth of light Keep it down in Panthalassa  
The karyotype finds her way  
We return to the very first one  
With the one we'll soon become Lay on the field of green with mother  
Leave with father by reaching high  
Look, put yourself in the eyes of all (In the eyes of all)  
Unfolding rendezvous  
Deep into the past  
The lonely eon path  
Greener blade of grass  
Every endless form most beautiful A life of wearing on  
Before the grandeur of it all  
A floating pale blue ark  
Of endless forms most beautiful Deep into the past  
The lonely eon path  
Greener blade of grass  
Every endless form most beautiful A life of wearing on  
Before the grandeur of it all  
A floating pale blue ark  
Of endless forms most beautiful
