

# High (feat. Shaggy & Demarco)

Eva Shaw

Girl, you oughta to charge for all the love you give  
Take away the negative and bring the positive  
And I'm not really much of a scientist  
But I can try and explain what the science is Right on time every time, every time, baby  
Don't disappear into the night, baby  
Just give me that time every time, baby Yeah girl, your loving got me looking down on Earth  
like it's goodbye  
Just you go the above and bring me on the get skies  
I swear there is no limit to your loving, that's no lie  
I got a thousand reasons why, your loving gets me  
High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high I am somewhere up in the atmosphere, outer space, an' the reason:  
I just like how you hold me down and lift me up, girl, just believe it Right on time every time,  
every time, baby  
Don't disappear into the night, baby  
Just give me that time every time, baby Girl, your loving got me looking down on Earth like it's  
goodbye  
Just you go the above and bring me on the get skies  
I swear there is no limit to your loving, that's no lie  
I got a thousand reasons why, your loving gets me  
High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high Cheer with me baby baby bom bom, skeng  
Cheer with me baby baby bom bom, skeng  
Cheer with me baby baby bom bom, skeng  
You keep me up, girl, when I'm feeling down  
I dictate to your love, I'm needing it now  
'Cause you got me high, way up high off the ground  
I've been down down, come down  
If you agree, I will sound  
And if I announce, I don't wanna be found

Your love got me high, way up high off the ground  
Come down, come down Girl, your loving got me looking down on Earth like it's goodbye  
Just you go the above and bring me on the get skies  
I swear there is no limit to your loving, that's no lie  
I got a thousand reasons why, your loving gets me High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high  
High, high, high, high, high  
Gets me high, gets me high Your loving gets me high  
Girl, your loving got me looking down on Earth like it's goodbye  
Just you go the above and bring me on the get skies  
I swear there is no limit to your loving, that's no lie  
I got a thousand reasons why, your loving gets me high  
Your loving gets me high
