

# Strangers Again (feat. Ari Hest)

Judy Collins

Long before we ever touched  
Long before we knew too much  
I wish we were strangers again  
Long before we ever kissed  
Long before I ever missed you  
I wish we were strangers again  
I want yesterday to come back again  
Nothing is as simple as I once knew  
Why can't everything be the way it was  
Before the day that I lost you?  
Long before the afterglow  
Long before our tears fell slow  
I wish we were strangers again
