

# One More Time (feat. Melanie Fiona)

## Gyptian

Can I ask you what you doing tonight? Baby  
Can you feel me? Even tough where an a different side (oh oh)  
Do you know this? What is happening  
Can you realize it in front of your eyes?  
This is love that I'm offering  
Baby I don't come to discuss  
Let me do ya, when I do ya cause I know you want me to do it  
And I can satisfy One more time, one more night  
One more baby just get it in  
One more night and I can do it  
I can make you right  
One more time, one more slide  
One more cash, baby one more lie we gonna do this straight up we ain't gonna fight  
Just one more, just one more night  
I can see it in your eyes it's impressionism  
Anybody in calling I seek one more time  
I can keep you pushing up down like a plane in the sky  
I can let all your dreams come true right in front your eyes  
The deeper I'll go girl the more pleasure I apply  
Feel rour pressure bursting like a greet from the sky One more night, one more baby just get it in  
One more night and I can do it  
I can make you right  
One more time, one more slide  
One more cash, baby one more lie we gonna do this straight up we ain't gonna fight  
Just one more, just one more night Whisper so safely, telling she love me  
Wanna care my baby  
She knows me if I'm happy (Ohh man)  
She make me everything I ever need  
She's the one that meant for me  
Sets my soul and mind blind free  
I need some...  
One more time, one more night  
One more baby just get it in  
One more night and I can do it  
I can make you right  
One more time, one more slide  
One more cash, baby one more lie we gonna do this straight up we ain't gonna fight  
Just one more, just one more night
