

# What'cha Got 2 Lose?

Blake Lewis

Hot and sexy is the definition of her  
So why she workin' with someone who doesn't value her worth?  
Don't want to be the onoe  
To come between, cause that's not my style  
If it don't happen now it's just a matter of timeTill she realizes what she needs  
Let go and just release herself from love not working  
Till she realizes what she needs  
Let go and just release herself from love thats hurtingWhat'cha got to lose  
Not trying to me rude, just telling it like I see  
What do I got to do  
To pull you away and get you alone with me  
Dont waste your time with a man who just don't understand  
What'cha got to lose  
Break these chains and walk away with me, yeah  
What'cha got to lose  
What'cha, what'cha, what'cha, got to lose  
What'cha got to lose, yeah, yeah  
What'cha got to lose  
What'cha, what'cha, what'cha, got to lose, to loseAllow this introduction girl the pleasure is  
mine  
Contradicting myself now push your man to the side  
Don't want to be the one to come between  
Something's gotta give  
Take my hand, that's the plan  
I'm taking you from yo manTill she realizes what she needs  
Let go and just release herself from love not working  
Till she realizes what she needs  
Let go and just release herself from love thats hurting  
What'cha got to lose  
Not trying to me rude, just telling it like I see  
What do I got to do  
To pull you away and get you alone with me  
Dont waste your time with a man who just don't understand  
What'cha got to lose  
Break these chains and walk away with me, yeahWhat'cha got to lose  
What'cha got to lose, my baby  
What'cha got to lose  
What'cha got to lose, my baby  
What'cha got  
What'cha got to loseShe got a sexiness  
Overflowing finesse  
It is evident that she's my queen

One good look in has eyes has got me mesmerized  
I want to give her everything that she needs Till she realizes what she needs  
Let go and just release herself from love not working  
Till she realizes what she needs  
Let go and just release herself from love thats hurting What'cha got to lose  
Not trying to me rude, just telling it like I see  
What do I got to do  
To pull you away and get you alone with me  
Dont waste your time with a man who just don't understand  
What'cha got to lose  
Break these chains and walk away with me Till she realizes what she needs  
Let go and then released herself from love not working  
Till she realizes what she needs  
Let go and then released herself from love thats hurting What'cha got to lose  
Not trying to me rude, just telling it like I see  
What do I got to do  
To pull you away and get you alone with me  
Dont waste your time with a man who just don't understand  
What'cha got to lose  
Break these chains and walk away with me, yeah
