

What'cha Got 2 Lose?

Blake Lewis

Hot and sexy is the definition of her
So why she workin' with someone who doesn't value her worth?
Don't want to be the onoe
To come between, cause that's not my style
If it don't happen now it's just a matter of timeTill she realizes what she needs
Let go and just release herself from love not working
Till she realizes what she needs
Let go and just release herself from love thats hurtingWhat'cha got to lose
Not trying to me rude, just telling it like I see
What do I got to do
To pull you away and get you alone with me
Dont waste your time with a man who just don't understand
What'cha got to lose
Break these chains and walk away with me, yeah
What'cha got to lose
What'cha, what'cha, what'cha, got to lose
What'cha got to lose, yeah, yeah
What'cha got to lose
What'cha, what'cha, what'cha, got to lose, to loseAllow this introduction girl the pleasure is
mine
Contradicting myself now push your man to the side
Don't want to be the one to come between
Something's gotta give
Take my hand, that's the plan
I'm taking you from yo manTill she realizes what she needs
Let go and just release herself from love not working
Till she realizes what she needs
Let go and just release herself from love thats hurting
What'cha got to lose
Not trying to me rude, just telling it like I see
What do I got to do
To pull you away and get you alone with me
Dont waste your time with a man who just don't understand
What'cha got to lose
Break these chains and walk away with me, yeahWhat'cha got to lose
What'cha got to lose, my baby
What'cha got to lose
What'cha got to lose, my baby
What'cha got
What'cha got to loseShe got a sexiness
Overflowing finesse
It is evident that she's my queen

One good look in has eyes has got me mesmerized
I want to give her everything that she needs Till she realizes what she needs
Let go and just release herself from love not working
Till she realizes what she needs
Let go and just release herself from love thats hurting What'cha got to lose
Not trying to me rude, just telling it like I see
What do I got to do
To pull you away and get you alone with me
Dont waste your time with a man who just don't understand
What'cha got to lose
Break these chains and walk away with me Till she realizes what she needs
Let go and then released herself from love not working
Till she realizes what she needs
Let go and then released herself from love thats hurting What'cha got to lose
Not trying to me rude, just telling it like I see
What do I got to do
To pull you away and get you alone with me
Dont waste your time with a man who just don't understand
What'cha got to lose
Break these chains and walk away with me, yeah
