

Committed

Jenny and Johnny

Committed, committed
I need to be committed
I need to be locked away
I need a straighter jacket on my crooked frame
I need to be admitted today Excited, excited
I need to get excited
and reconnect with nature, babe
I need to focus on the sunshine, focus on my goal
Truth in every grain of sand
I put my back into, put my back into my work
I will receive what I, will see what I deserve Listen You have to be patient
This new administration is doing the very best it can
But there's armies in the banks who tried all of the skanks
Attorneys for the Ku Klux Klan For god and for country, for Michael Jackson's monkey
Just take another on the chin
I was a singer in a band, yeah, had sex in my van
and filling it with mexicans Who put their back into, put their back into their work
They will see what they, they will receive all they deserve It's a beautiful life
we lay sleeping
With my beautiful wife and me
We'll hold each other closer till the end of days
I made my decision
I will go back to prison
I will survive the end of my bed
The writing is in the hall, the markings on the wall
that say "dead man walking"
I put my back into, put my back into my work
I will receive what I, will see what I deserve Make the commitment
