

# Thunder

## Chloe x Halle

lighting across the sky  
beauty that paralyzes, oh i, oh i  
i'm not scared, i wanna try  
you're a storm, i can't deny, oh i, oh imy baby gone, he got me so high  
is heaven's door right next door to my heart  
don't even know what the di?erence is  
don't even know what the di?erence is  
my baby told me that i'm in love  
but no, i'm tripping tripping, did he slip me a drug?  
don't even know what the di?erence is  
can't even tell you what the di?erence is  
just know i feel that rain, it's coming towards you  
just know i feel that rain, it's coming towards you  
feel that rain, it's coming towards you  
feel that rain, it's coming towards youwatch it electrify  
blazes across the sky, oh i, oh imy baby gone, he got me so high  
is heaven's door right next door to my heart  
don't even know what the di?erence is  
don't even know what the di?erence is  
my baby told me that i'm in love  
but no, i'm tripping tripping, did he slip me a drug?  
don't even know what the di?erence is  
can't even tell you what the di?erence isjust know i feel that rain, it's coming towards you  
just know i feel that rain, it's coming towards you  
feel that rain, it's coming towards you  
feel that rain, it's coming towards you  
feel that rain, it's coming towards you  
feel that rain, it's coming towards you  
feel that rain, it's coming towards you  
feel that rain, it's coming towards you
