

# When the Shades Go Down

## Allure

Baby  
Hey  
La doo, doo, doo, doo Step into my secret world  
Tonight I'm going to be your private angel  
I just want to be your girl  
Love you all night, love you all night Slip into a heated bath  
The scent of cherry blossoms fills the air  
As I rub your body down  
You can just relax and let me work it I'll show you how I break it down  
Candles, Chardonnay and flowers  
I'll tend the lights, warm the bed  
Preparing for the hour  
(When the shades go down)  
We can bath in my red light  
Getting naughty through the night  
(Naughty)  
Sharing love and all love sounds  
When the shades go down  
When the shades go down In the comfort of my bed  
(In the comfort of my bed)  
Silk, satin and jade  
Exotic pleasures can be found  
When the shades go down  
When the shades go down Something's on the menu tonight  
I know you're going to like it from the first bite  
Tell me what's your appetite  
Do you like it raw, do you like it raw?  
Kisses, there so warm on the skin  
Come and taste the sweetness that's within  
We can bath in my red light  
Getting naughty through the night  
(Naughty)  
Sharing love and all love sounds  
When the shades go down  
When the shades go down In the comfort of my bed  
(In the comfort of my bed)  
Silk, satin and jade  
Exotic pleasures can be found  
When the shades go down  
When the shades go down Steam on my window  
Reflections of red light  
(You and I through the night)

To simple it seemed that night  
(Impressions from my fingers)  
And my fingertips leave  
Impressions of the love's intensity See the pleasures of love in the lowest tattoos  
Like a joyous slick, I'm waiting for you  
Dive into my waters and ride the waves  
Every time the love is made, see the pleasures of love In the lowest tattoos like a joyous slick  
I'm waiting for you  
Dive into my waters and ride the waves  
It's time to pull down the shades In the comfort of my bed  
(In the comfort of my bed)  
Silk, satin and jade  
Exotic pleasures can be found  
When the shades go down  
When the shades go down Umm, go down, go down, go down  
(Naughty)  
Go down, go down, go down  
(When the shades go down)  
(Go down, baby) Go down, go down, go down  
(My shades, yeah)  
(Go down, baby)  
Go down, go down, go down  
(Go down baby)  
When the shades go down
