## AWOLNATION

The sweet, sweet heaven it feels like defeat, yeah  
The cold, cold blood it covers my feet, yeah  
These bitches keep bitchin and twitchin, oh dont ya know  
I know that nobody knows, so don't go, baby don't go Maybe its cold blood!  
Cold blood! Ccc-cold blood The cold, cold blood, the hole in her chest, yeah  
The rubies and gold are from the hole in her chest, yeah  
But if ya learn something, take nothing from me  
I know that love is a terrible, terrible thing, ahhh Maybe its cold blood!  
Cold blood! Ccc-cold blood I'm sorry  
Eyes are all around me, now they see me, now they dont  
Eyes are all around me, like they're lookin at a ghost  
Eyes are all around me, now they see me, now they dont  
Eyes are all around me, cause she's looking at a ghost  
And I cried, I cried, I cried cause I still love you the most  
Eyes are all around me, cause they're looking at a ghost  
Eyes are all around me, now they see me, now they dont  
And I cried, I cried, I cried cause I still love you the most  
Eyes are all around me now  
Eyes are all around me  
Eyes are all around me now  
Eyes are all around me, cause she's looking at a ghost  
Cold blood! Ccc-cold blood  
Bitches
