

# It's Not Over (feat. Sam Fischer)

## Gizzle

I've been walking through this storm myself, these winds don't help  
Heart's turned black from bruises, I've been blinded from the tears in my eyes and  
All this time I've been wondering, wondering howHow I'm gon', how I'm gon' work this out  
Wondering, wondering when, when this pain gon' end  
No matter how hard it gets, my truth is the light in the darkness  
But I'm built to fight 'til exhaustion  
And that's why I never gave upThey tried to bring me down  
They tried to count me out  
But it's not, it's Not Over  
And yes I've been through hell  
But on the other side is where I found myself  
And it's not, it's Not Over  
They say God gives his tests  
To the ones prepared best  
To understand the lessons and turn them into blessings  
But all my momma's stressing and all this second guessing  
Just seemed a little extra but still  
I know enough not question his will  
Cause every road I walked was rough but I'm still standing here still  
With a spirit that's as strong as valyrian steel  
And not to mention every burden that I carried uphill, but yeah  
I've had days darker than a killer's heart  
Where I'd give anything for gossip and pillow talk  
Head on the guillotine, just waiting for the chop  
And then an angel lift's my head from the block  
It's Not Over  
Come hell or high water  
I'll be fighting like I oughtta  
Put my heart in these recordings  
Never falling cause ain't no autumn in California  
The paranoia that comes with trying to be great, sometimes it's too much take  
So wrangling every snake that tried to change my fate  
They thought they had my day but I just changed the date  
Funny, how they love to build you up just to tear you down  
Get you on the ground, while you're there, they're nowhere around  
Pick yourself up, now you up, they start showing up  
When you rise up from the dust  
You just wish them luck  
'Cause all that pain just made me stronger  
They thought they had gotten over  
Mindset of a soldier, so you know it's never over, yeaOoooooh ooooooh ooooooh  
No

Ooooooh ooooooh ooooooh  
Oh they tried to bring me down  
But it's not over
