

Next Time

Curtis Harding

we could have wait till heaven
would you wing your play
now we are somewhere else
outer space i am starring in the mirror
i broke a part of glass
now we are somewhere else living in the past will we travel home
keep away from you
be the little thing as i followed through
i will see you there
we can start again / a game
as a love affair or just a friend
until
next time 4x they say it's never over
they say it is never fair
i don't know if that's true
i don't even care because i am focused on my future
i settled all the past
i don't train some dates girl
since you see me lay
will we travel home
keep away from you
be the little thing as i followed through
i will see you there
we can start again / a game
as a love affair or just a friend
