

# Always (jRyann Radio Edit)

## Plumb

Out of nowhere  
You came  
From a little dust  
And a little rain  
And when I looked down at  
Your face  
It showed to me  
The truth and grace I will always try to keep you very safe  
So open up your eyes  
So they can look in mine  
And see a small reflection  
And when you close your eyes  
I pray the thoughts inside  
Are beautiful and true  
I won't always  
Be this strong  
And I won't always  
Be the one  
To kiss the bruise  
Or heal the scrapes  
To wipe the tear drops  
From your face But I will always love you more each day  
So open up your eyes  
So they can look in mine  
And see a small reflection  
And when you close your eyes  
I pray the thoughts inside  
Are beautiful and true I will always love you more each day  
I will always try to keep you safe  
So open up your eyes  
So they can look in mine  
And see a small reflection  
And when you close your eyes  
I pray the thoughts inside  
Are beautiful and true I will always  
I will always ... love you
