Fire (feat. Evalyn)

[Louis The Child](#)

Looking up, starlight
Take me there, yeah I wanna fly
One call, bankroll
Wanna feel the rush to the front row
Paycheck, late again
Barely hanging on to the apartment
Doing it my way
Ain't nothing free 'bout the free wayBut I'm miles off the ground
I'm leaving this whole mad city to burn
And I'll watch it go down
Ooh cause that sun gon' take me with it, hey
And I'm building a fire, fire
I'm building it higher, higher
I'm gonna run this empire, pire
And if it go down in the flames, the smoke gon' spell my nameLipstick, red wine
Long nights, it's a lifestyle
So good to the last drop
You could see me light up from the rooftopsBut I'm miles off the ground
I'm leaving this home and city to burn
And I'll watch it go down
Ooh cause that sun gon' take me with it, hey
And I'm building a fire, fire
I'm building it higher, higher
I'm gonna run this empire, pire
And if it go down in the flames, the smoke gon' spell my name
And I'm building a fire, fire
I'm building it higher, higher
I'm gonna run this empire, pire
And if it go down in the flames, the smoke gon' spell my name
