

Better Days Will Come

Tahiti 80

As i was thinking about the things you said
I looked up to the sky see a cloud passing by
There must be something wrong
There must be something wrong
As i was thinking about the things you said
I looked up to the sky see a cloud passing by
There must be something wrong
There must be something wrong
Better days will come...
Better days will come...
No you can't always win, i guess you'd rather just wait
Better days will come
As i was thinking about the things you said
I looked up to the sky see a cloud passing by
There must be something wrong
There must be something wrong
Better days will come...
No you can't always win, i guess you'd rather just wait
Better days will come...
No you can't always win, i guess you'd rather just wait
Better days will come...
No you can't always win, i guess you'd rather just wait
There must be something...
There must be something wrong
Better days will come...
Better days will come... (come)
Better days will come...
No you can't always win, i guess you'd rather just wait
Better days will come...
No you can't always win, i guess you'd rather just wait
Better days will come...
Just wait...
