Fever

Bullet for My Valentine

It's hot as hell in here
Everybody wants to lose control
The music's turned up loud, the lights
We'll turn them lowWound up like a hurricane

And my head's about to explode

Can't wait to self-destruct

Can't wait to let it go(Woah-oh) She hits the stage

(Woah-oh) She makes me crave

So come and get my money (Woah-oh-oh)I can feel your fever, taking over

Can you see your fever, taking over me

I can feel your fever, taking over

Got a dirty feeling, that you're the remedy

Woah Come on!So I'm looking for a spark

I've got a body to re-ignite

Don't worry you won't get burned

So don't don't put up a fightPush hard to breaking point

And I'm ready to overload

No limits and no regrets

It's time to sell my soul(Woah-oh) You're all I want

(Woah-oh) You're all I need

So come and take my money (Woah-oh-oh)I can feel your fever, taking over

Can you see your fever, taking over me

I can feel your fever, taking over

Got a dirty feeling, that you're the remedy

That you're the remedy

Come here you naughty girl you're such a tease

You look so beautiful down on your knees

Keep on those high heel shoes rip off all your clothes

You smell so fucking good it makes me lose control!Losing control! (You're all I want)

Selling my soul! (You're all I need)

Losing control! (You're all I want)

I can't let you go!

Woah-oh-oh

I can feel your fever, taking over

Can you see your fever, taking over me

I can feel your fever, taking over

Got a dirty feeling, that you're the remedy

That you're the remedy

You are the remedy!
