

# Exhale

## Plumb

It's okay to not be okay  
This is a safe place  
This is a safe place  
Don't be afraid Don't be ashamed  
There's still hope here  
There's still hope here  
No matter what you've done or who you are  
Everyone is welcome in His arms Just let go let His love wrap around you  
And hold you close  
Get lost in the surrender  
Breathe it in until your heart breaks  
Then exhale  
Exhale  
Spirit come tear down the walls That only You can  
That only You can  
Reconcile this heart to Yours  
Right now God  
Right now  
Just let go let His love wrap around you And hold you close  
Get lost in the surrender  
Breathe it in until your heart breaks  
Then exhale  
Exhale  
Oh God We breathe in your grace  
We breathe in your grace  
And exhale  
Oh God we do not exist for us  
But to share Your grace and love  
And exhale  
Oh God We breathe in your grace  
We breathe in your grace  
And exhale  
Oh God we do not exist for us  
But to share Your grace and love  
And exhale Just let go let His love wrap around you  
And hold you close  
Get lost in the surrender  
Breathe it in until your heart breaks  
Then exhale  
Exhale  
Exhale  
Exhale

Exhale
