Get Up Get Down

[Phillip Phillips](#)

Get up get down get a little bit closer to the scene
Find out, what's there, something new you can see
Get up get down get a little bit closer to me
Find out what's there what you can beYesterday was our time to turn back again
And instead we went through the fire to get lost in sin
Burn baby burn let me cool you down again
Turn baby turn to see where it all beginsCause it's alright it's out there
Go and get lost girl
It's alright I'm out there
Let me take control
Get up get down move a little bit closer to the scene
Find out, what's there, something new you can see there
Get up get down get a little bit closer to me, girl
Find out what's there what you can beWalking over tv on
Let it take control love
Every side inside your body each and every bone
Burn baby burn let's cool it down again
Turn baby turn to see where it all beginsYeah, it's alright it's out there
Go and get lost girl
It's alright I'm out there
Let me take controlGet up get down move a little bit closer to the scene
Find out, what's there, something new you can see there
Get up get down get a little bit closer to me, girl
Find out what's there what you can be
Na na na na na no
Na na na na na noGet up get down just a little bit
Get up get down just a little bit
Get up get down let's get lost in this merry go round and roundNa na na na na no
Na na na na na noGet up get down just a little bit
Get up get down just a little bit
Get up get down find out what's there, find out baby you and meGet up get down move a little
bit closer to the scene
Find out, what's there, something new you can see there
Get up get down get a little bit closer to me, girl
Find out what's there what you can beGet up get down move a little bit closer to the scene
Find out, what's there, something new you can see there
Get up get down get a little bit closer to me, girl
Find out what's there what you can be
