Hillbilly Deluxe

Jake Worthington

Hey, up in the backwoods, down in the holler
Old boys feeling like a dog on a collar
Keeping that chain pulled tight
Waiting on Saturday nightPut on the smell-good, put on Skynard
Head into to town like a NASCAR winner
Cruising back an' forth to the Tasty-Freeze
Everywhere you look, all you see...Is hillbilly deluxe, slick pick-up trucks
Big timing in a small town
Stirring it up right about sundown
Black denim an' chrome to the bone with a little home grown

A country girl cuddled up...

Hillbilly deluxe

Yeah, couple cute sweet things driving a fastback Shoot 'em a cool smile hoping that they smile back

"Hey, Baby, what's you name?"

Burn a little rubber when the red lights changeHere come the blue lights, here come Barney Hide all the beer, y'all, let's move the party

Gotta go, but that's all right...

Do it all again next Friday nightHillbilly deluxe, slick pick-'em-up trucks

Big timing in a small town

Stirring it up right about sundown

Black denim an' chrome to the bone with a little home grown

Country girl cuddled up...

Hillbilly deluxe

Hillbilly deluxe, slick pick-'em-up trucks

Big timin' in a small town

Stirrin' it up right about sundown

Black denim an' chrome to the bone with a little home grown

Country girl cuddled up...

Hillbilly deluxe

Hillbilly deluxe
