

Supernova

Within Temptation

[Intro]

I'm waiting for you, supernova
I'm waiting for you, supernova, supernova, supernova
I'm waiting for you, supernova, supernova, supernova[Verse 1]
Drowning in a haze, and I just wanna get in deeper
Purple skies with a million stars, I'm falling ground
These days when I'm losing track of time
These days when I'm burning up inside
These days when I'm lost, I search the skies

[Chorus]

I'm waiting for your last goodbye
'Cause I'm not over it, not over it
I'm waiting for your last goodbye
The kiss of time
Like thunder screaming out for a flash of lightning
Stars are falling down for God's applause
I'm waiting for the light of your supernova
Your last goodbye[Post-Chorus]
I'm waiting for you, supernova, supernova, supernova
I'm waiting for you[Verse 2]
When the lights go down, I'm still here, and I'm singing for you
When the lights go down, I can't let the music fade
I dive in deep and soar so high
I blow the ashes through the sky
On a hill, I'm here to say goodbye

[Chorus]

I'm waiting for your last goodbye
'Cause I'm not over it, not over it
I'm waiting for your last goodbye
The kiss of time
Like thunder screaming out for a flash of lightning
Stars are falling down for God's applause
I'm waiting for the light of your supernova
Your last goodbye[Post-Chorus]
I'm waiting for you[Bridge]
As long as I dream, it ain't over, over
I'll break the chains of gravity
Oh, I long for your fire, yeah, I long for your fire
My heart is lost between the stars[Interlude]
Drowning in a haze, and I just wanna get in deeper, deeper, deeper, deeper[Chorus]
I'm waiting for your last goodbye
'Cause I'm not over it, not over it

I'm waiting for your last goodbye
The kiss of time
Like thunder screaming out for a flash of lightning
Stars are falling down for God's applause
I'm waiting for the light of your supernova
Your last goodbye[Post-Chorus]
I'm waiting for you, supernova
I'm waiting for you, supernova, supernova, supernova
I'm waiting for you
I'm waiting for you, supernova, supernova, supernova[Outro]
Drowning in a haze, and I just wanna get in deeper, deeper, deeper, deeper
