

Fear

Creed

The cradle of civilization sparks my fascination
Truth ignites our generation to change what's been programmed
 Inside my mind Don't you turn a blind eye
 Change what's been programmed inside
Don't you turn a blind eye Listen to me when I tell you
 Feel the passion in my breath
 Stay on top if they let you
 Cause the change is permanent!
 Change is permanent
Rudiments of interpersonal communication
Truth will uproot and bring war's devastation to light Don't you turn a blind eye
 Change what's been programmed inside
 Don't you turn a blind eye
Staying silent is a crime Listen to me when I tell you
 Feel the passion in my breath
 Stay on top if they let you
 Cause the change is permanent!
Change is permanent Change starts in your mind
 Leave the past behind
 Forget everything you know
Make a change... Let go (x2) Let go... let go... let go
 Listen to me when I tell you
 Feel the passion in my breath
 Stay on top if they let you
 Cause the change is permanent!
 Change is permanent (x2)
