

Catacombs

10 Years

Make us a new muse
(Make us a new muse)
Our golden gods are old news
Dig up those old bones
These new clones have no
Rhythmus soul (rhythmus soul)
Rhythmus soul We're tripping on the heels of kings and queens
Feed cheap thrills and shiny things
Do we want them?
Why do we want them? Don't stop, it won't stop
Don't stop, it won't stop
(We don't want them)
Don't stop, it won't stop
Don't stop, it won't stop
Rewrite us new rules
(Rewrite us new rules)
When all the laws have been abused
Repeat history
Like a dead language mystery
We can't read (we can't read)
We can't read We're tripping on the heels of kings and queens
Feed cheap thrills and shiny things
Do we want them?
Why do we want them?
Line us up in holes like catacombs
Keeps us comatose so no one knows
Do we want them?
Why do we want them?
Don't stop, it won't stop
Don't stop, it won't stop
(We don't want them)
Don't stop, it won't stop
Don't stop, it won't stop Dig up those old bones
These new clones have no
Rhythmus soul
Rhythmus soul We're tripping on the heels of kings and queens
Feed cheap thrills and shiny things
Do we want them?
Why do we want them?
Line us up in holes like catacombs
Keeps us comatose so no one knows
Why do we want them?

Why do we want them? Don't stop, it won't stop
Don't stop, it won't stop
(We don't want them)
Don't stop, it won't stop
Don't stop, it won't stop
Don't stop, it won't stop
(We don't want them)
Don't stop, it won't stop
Don't stop, it won't stop
(We don't want them)
Don't stop, it won't stop
