

# Rise

## I Prevail

You gotta fight through the pain, to get to the top  
You gotta push through it all, if it's what you want  
Screaming THIS IS a call to the dreamers  
Dig a little deeper, make 'em believers R I S E, let's light a match and ignite the streets,  
screaming  
R I O T, but now it's time to give 'em something to say  
So dig a little bit, never quit, keep on that hustle  
Get up and take another hit, hold on through the struggle, screaming  
R I S E, let's light a match and ignite the streets  
Let's light 'em up, light 'em up You gotta fight through the pain, to get to the top  
You gotta push through it all, if it's what you want  
Screaming THIS IS a call to the dreamers  
Dig a little deeper, make 'em believe  
You gotta fight through the pain, to get to the top  
You gotta push through it all, if it's what you want  
Screaming THIS IS a call to the dreamers  
Dig a little deeper, make 'em believers  
Dig a little deeper, make 'em believers The road is long, but it's the one to take  
You gotta put in the work, it's time to make or break  
Though the road is long, it's the one to take  
You gotta put in the work, it's time to make or break You gotta fight through the pain, to get to  
the top  
You gotta push through it all, if it's what you want  
Screaming THIS IS a call to the dreamers  
Dig a little deeper, make 'em believe  
You gotta fight through the pain, to get to the top  
You gotta push through it all, if it's what you want  
Screaming THIS IS a call to the dreamers  
Dig a little deeper, make 'em believers Make them believe, Write down your name in history,  
you gotta  
Make them believe, One day they'll remember me  
You gotta stand up tall give 'em something to say  
With you back against the wall be somebody to hate  
Make them believe, Write down your name in history  
You gotta fight through the pain, to get to the top  
You gotta push through it all, if it's what you want  
THIS IS a call to the dreamers  
Dig a little deeper, make 'em believe  
You gotta fight through the pain, to get to the top  
You gotta push through it all, if it's what you want  
Screaming THIS IS a call to the dreamers  
Dig a little deeper, make 'em believers Make them believe, Dig a little deeper, make 'em

believers  
THIS IS a call to the dreamers  
Dig a little deeper, make 'em believers
