

Let's Get It Started

MC Hammer

Let's get it started!

Now your party wasn't jumping and your DJ was weak
Instead of dope beats, he was spinnin
them Z's

All the fly girls who came with a beat in mind

They all up against the wall like a welfare line

Do you think for one minute that this is it?

Your party is bogus, Yo it ain't legit

You better put on the hammer, And you will be rewarded

My beat is ever boomin, And you know I get it started

Get it started!

Now get up out your seat because my beat is so complete

I'm movin everybody from A to Z

And when it comes to straight up rockin, I'm second to none
From Doug E. Fresh to LL or DJ

Run

They say hammer how you do it? I got it like that

My posse's ever rollin, We keep it in tact

Just put on the hammer, And you will be rewarded

My beat is ever boomin, And you know I get it started

Now, a lot of b-boys make em dance, Yo they fakin the beat

They hip hop on the outside, but rock underneath

Before the show gets started, They shakin they boots

My posse in the end cold displayin the troops
Like a trooper, I'm down cold hooked on the drugs

808 SB12'S are expirin africans

Just put on the hammer, And you will be rewarded

My beat is ever boomin, And you know I get it started

They said it couldn't happen, that rap wouldn't last

The beat is in effect like the oil in your gas

Cause it's makin lots of money from top to bottom

Whatever in effect, Yo, B-boys have got em

Nobody knows how a rapper really feels

A mind full of rhymes, and a tongue of steel

Just put on the hammer, and you will be rewarded

My beat is ever boomin, and you know I get it started
