## Let's Get It Started

## **MC Hammer**

Let's get it started! Now your party wasn't jumping and your DJ was weakInstead of dope beats, he was spinnin them Z's All the fly girls who came with a beat in mind They all up against the wall like a welfare line Do you think for one minute that this is it? Your party is bogus, Yo it ain't legit You better put on the hammer, And you will be rewarded My beat is ever boomin, And you know I get it started Get it started! Now get up out your seat because my beat is so complete I'm movin everybody from A to Z And when it comes to straight up rockin, I'm second to noneFrom Doug E. Fresh to LL or DJ Run They say hammer how you do it? I got it like that My posse's ever rollin, We keep it in tact Just put on the hammer, And you will be rewarded My beat is ever boomin, And you know I get it started Now, a lot of b-boys make em dance, Yo they fakin the beat They hip hop on the outside, but rock underneath Before the show gets started, They shakin they boots My posse in the end cold displayin the troopsLike a trooper, I'm down cold hooked on the drugs 808 SB12'S are expirin africans Just put on the hammer, And you will be rewarded My beat is ever boomin, And you know I get it started They said it couldn't happen, that rap wouldn't last The beat is in effect like the oil in your gas Cause it's makin lots of money from top to bottom Whatever in effect, Yo, B-boys have got em Nobody knows how a rapper really feels A mind full of rhymes, and a tongue of steel Just put on the hammer, and you will be rewarded My beat is ever boomin, and you know I get it started Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
