

# Shame Shame

## From First to Last

If ignorance is bliss  
Eradicate my knowledge of my history  
Now meaning is left on my own  
I look for a long time  
Cross back with your kind  
But some things are better left alone  
Wake up, lonely, hating my life, alone...  
Wake up, lonely, hating my life  
Shame, shame on me  
Come again  
Shame, shame on me  
Come again  
Just bodies, they brightly scratch  
They claw like golden souls  
Show pictures you wont see, you'll never know  
Just bodies, these golden souls  
With pictures, wont delete it  
Heaved into the ocean to drown with your brothers, your brothers...  
Wake up, lonely, hating my life  
Their brothers, brothers...  
Wake up, lonely, hating my life  
Shame, shame on me  
Come again  
Shame, shame on me  
Come again  
Come again  
Come again  
Oh shame, shame on me  
Come again  
Shame, shame on me  
Come again  
Shame, shame on me  
Come again  
Oh shame on me  
Come again
