Work It Out (feat. Digital Farm Animals)

Netsky

Don't you walk away
I've given too much of me
Can't you understand?
I know that it's hard to see
Time is on our hands

And I don't wanna waste no more

I can't afford to lose youBut we can, we can, we can, we can work it out

Even if we try and it all burns down

We can, we can, we can work it out

Even if we try and it all burns down

We can, we can, we can work it out

Even if we try and it all burns down

We can, we can, we can work it out

Even if we try and it all burns down

We can, we can work it out

We can, we can work it out

We can, we can work it out

We can, we can, we can work it outBut we can, we can, we can work it out

Even if we try and it all burns down

We can, we can, we can work it out

Even if we try and it all burns down

But we can, we can, we can work it out

Even if we try and it all burns down

We can, we can, we can work it out

Even if we try and it all burns down

We can, we can work it out
