

Prom Night (Lindsay Lowend Remix)

Anamanaguchi

I could be lying next to anyone
But I'm still thinking of you
You're like the lighter to my cigarette
Can't set the flame without you And if you want me to come over, baby
Then that's what I'm gonna do
Just give me all your loving and don't slow down
And don't you dare hold back at all Go down and take me up to heaven
Oh, how I live just to be next to you
I need you here with me forever
I live for you to love me
La la la la love me, love me, love me, love me
Love me like it's prom night
I wanna hold you close like it's the very first time
La la la la love me, love me, love me, love me
Love me like it's prom night
Wanna be this fantasy all night with you Go down and take me up to heaven
I live for you to love me Take me up to heaven
La la la la love me, love me, love me, love me
Love me like it's prom night
I wanna hold you close like it's the very first time
La la la la love me, love me, (I want you to) love me, love me
(I wanna hold you so close) Love me like it's prom night
Wanna be this fantasy all night with you
