Searchlights

Falling Up

It's like a breath before the dive
It's like the truth after a lie
This flight is taking over
Searchlights in every corner
Like I love you when you're gone
Escaping in the dawn
I swear we'll flood your city

No choice it's what you're gettingIf you want to breathe will you just let me know

If you want it, then you'll see it, let me know

Wash away the tears, will you just let me know

Need to see it, then you'll want it, let me know

The secrets in the wind

The rumors now begin

You want to hear the silence

You want the quiet sirens

His blood is like the break

The love you will not take

I swear we'll flood your city

No choice it's what you're gettingIf you want to breathe will you just let me know

If you want it, then you'll see it, let me know

Wash away the tears, will you just let me know

Need to see it, then you'll want it, let me knowNo one can breathe, no one can see

They are asleep, they will be seen

Asleep

Breakaway the voice is calling Wake up you're asleep and falling Not to late to open up your heart He will heal the shattered hopes And fly away the broken souls

It's not too late to find out who you areIf you want to breathe will you just let me know

If you want it, then you'll see it, let me know

Wash away the tears, will you just let me know

Need to see it, then you'll want it, let me know
