

Butcher Baker Candlestick Maker

Panda Bear

God, my God, my dog has a broken leg
Grip this, grab that, have that, an empty bag
Grip this, grab that, have that, an empty plug in
And one's a friend of mine
And one's a Gemini
And one's a friend of mine
Oh wait, I'll wait a while
While (while) while (while) while (while) while
Really shouldn't bring that other guy
Really shouldn't bring that other guy
Really shouldn't bring that other guy
Really shouldn't bring that other guy
(You know you) Really shouldn't bring that other guy
(You know you) Really shouldn't bring that other guy
(You know you) Really shouldn't bring that other guy
God
Dig begin, this pad has a bigger grid
Grip this, grab that, have that, an empty bag
Grip this, grab that, have that, an empty plug in
At once, a bend of mind
And one gets left behind
At once, a bend of mind
Oh wait, I'll wait a while
While (while) while (while) while (while) while
Really shouldn't bring that other guy
Really shouldn't bring that other guy
Really shouldn't bring that other guy
Really shouldn't bring that other guy
(You know you) Really shouldn't bring that other guy
(You know you) Really shouldn't bring that other guy
(You know you) Really shouldn't bring that other guy
God
