

# Old Fashioned

## Buddy Guy

I like cooking on a wood stove  
People I like it well done  
Yeah I like cooking on a wood stove  
Let me tell ya' I like it well done  
You can call me old fashioned, but I still know how to have my fun  
Leave my doors open,  
breathe in that country air  
(no thought of losin')  
Yes I can leave my doors open, breathe in that country air  
It's good for you  
You can call me old fashioned, but I really don't care  
Look out now...  
I was born like that and I wouldn't take it back  
Every day you live, I been living three  
Yes I say, every day you live, I been living three  
A storm ain't no good, if you don't give off no heat  
They call me old fashioned, that's just who I am  
Yes they call me old fashioned, because that's just who I am  
I'm just like an old car, back when  
gas was fifty cents  
I wish I was back there now ...
