Come on, come on, we can go away
We don't need them, We don't need them
We could be free by ourselves
Come on, come on, we can go away
We don't need them, We don't need them
We could be free by ourselves
Late night calls
and dreams of gold
We don't belong here, anymore
Many say we should listen
It's time for us to free ourselves
Come on, come on, we can go away
We don't need them, We don't need them
We could be free by ourselves
Come on, come on, we can go away
We don't need them, We don't need them
We could be free by ourselves
