

Realla (feat. Anderson .Paak)

TOKiMONSTA

My new fire, you're ought to come to light me
Around this time I only want you near
You can't be where I be, I'm way to fly to let you out me
But I do care, oh yeah It's hard to see when your body and arms reach
My mind is to grand prix
I'm lying but to step gon' drive a few blocks east
To rendez-vous at the spa?? become east
For realla, baby
(No, like nothing nothing I've ever known, no no no)
For realla baby
(That you're the realest realest I've ever known)
One last time before you step out and leave
You can't be where I be, I'm way to fly to let you out me
But I do care, oh yeah
For realla, baby
For realla, baby
Yea-yea-yeah!
(No, like nothing nothing I've ever known, no no no)
For realla baby
(That you're the realest realest I've ever known)
For realla, baby
(No, like nothing nothing I've ever known, no no no)
For realla baby
(That you're the realest realest I've ever known) No, like nothing nothing I've ever known,
That you're the realest realest I've ever known
Let be at your home at the late hour,
Waitin' in the cold, waitin' an hour
Tell me what's the code to the front gate
Tell me what's the roles we gon' play
Take off your clothes off, I can't wait
Tell âE~em other niggers you'd be out of town
Tell âE~em other bitches ever put down on me
Long days, but we'd better make the?? around them
Tell âE~em other niggers you'd be out of town
Tell âE~em other bitches ever put down on me
Long days, but we'd better make the?? around them
White wine, no ice in the glasses
But you might put ice in my candy cane
