

Troubled Times

Green Day

What good is love and peace on Earth
When it's exclusive?
Where's the truth in the written word
If no one reads it?
A new day dawning
Comes without warning
So don't think twice We live in troubled times
We live in troubled times What part of history we learned
When it's repeated?
Some things will never overcome
If we don't seek it
The world stops turning
Paradise burning
So don't think twice
We live in troubled times
We live in troubled times
We live in troubled times We run for cover
Like a skyscraper's falling down
And then I wonder
Like a troubled mind What good is love and peace on Earth
When it's exclusive?
Where's the truth in the written word
If no one reads it?
A new day dawning
Comes without warning
So don't look twice
We live in troubled times
We live in troubled times
We live in troubled times
We live in troubled times
We live in troubled times
We live in troubled times
